

HI-145 Pocket Thermometer

The HI-145 has been designed to give reliable and accurate temperature readings for the food industry. The durable T-shaped handle fits comfortably in the hand and is ideal for applications where applied force is necessary for insertion, such as with incoming meat inspection and semi-frozen foods. The position of the LCD display on the top of the meter allows easy reading when used in cooking.

The HI-145 is equipped with the unique Hanna Cal Check system which checks the instrument circuit is still in calibration every time you switch on. A 3,000 hour battery life gives economic running, and the thermometer helps conserve battery power by with an automatic switch off.

Specification

Range -50 to +220 C

Resolution 0.1 C

Accuracy +/-0.3 C

Probe 125mm x 5mm stainless steel stem

Battery 1 x 1.5volt AAA type giving 3,000 hours use

Dimensions 92 x 165 x 38mm; 65 grams
